Course	BSHCSD4
Supervisor	Emer Thornbury

Month:

What?

Reflect on what has happened in your project this month?

This month has been tough when it came to my project but it wasn't directly tied to it, While yes I have a lot to work on generally when it comes to the project and Also fixing up some things from the Mid-point presentation Like working on my diagrams as some weren't as good as they could have been and other smaller general updates but also outside factors like other college assignments

So What?

Consider what that meant for your project progress. What were your successes? What challenges still remain?

There's a few things I can take away from this month, I have to prioritize better and That I know I can put in more effort. I have a good idea of what I want to do but I need to use my time better, With that knowledge I know I can get what I want to do done

Now What?

What can you do to address outstanding challenges?

I need to Improve my prioritization but I can work on the things much more as soon as my other CAs are finished which they will be finished soon enough
