Course	BSH in computing
Supervisor	?

Month:

What?

Reflect on what has happened in your project this month?

We were tasked with coming up our ideas for our 4th year project and challenged on if our idea is actually possible.

So What?

Consider what that meant for your project progress. What were your successes? What challenges still remain?

Now we need to fine tune the idea for our project idea and think about what is important and what we need to do.

Now What?	
What can you do to address outstanding challenges? I'm going to ask about some of these problem and where to go from here with what I need to do.
